Turning Air Into Hot Water Here's How It Works

1

Air Intake

The fan pulls in air from around your home.

2

Heat Extraction

Inside the system, the evaporator absorbs heat from the air using a special refrigerant, even on cold days.

3

Heat Amplification

The compressor boosts this heat to a higher temperature.

4

Water Heating

The heat transfers to the water stored in the tank, making it piping hot.

5

Ready on Demand

Hot water is stored, ready to flow to your taps or shower whenever you need it.

Peace of Mind, Every Step of the Way

From Small Homes to Large Families — We've Got You Covered

ætherCore

220L (1-3 People)

Efficient hot water for smaller households

ætherHome

270L (3-5 People)

Reliable everyday Performance for families

ætherMax

320L (5-7 People)

High-capacity solution for larger homes

Three sizes. One perfect fit for every home.

How ætherSmart Simplifies Your Experience?

Detect. Diagnose. Resolve. ætherSmart Fixes It Fast.

ætherSmart monitors your system 24/7 and alerts you, your installer and our Australian team the moment an issue arises.

Your local ætherPro Installer & æther Support Team diagnose issues remotely—often fixing them without a service call.

Local ætherPro Installer or service agent arrives with the right fix, minimizing downtime and hassle.

Why wait days for a technician when ætherSmart can detect and diagnose in seconds?

æther – The Pillars of Our Brand

Designed for Australian homes. Built for performance. Backed by technology. Experience smarter hot water with æther.

A Australian-Owned & Operated

Proudly **Australian**, designed for Australian homes, and built to perform in extreme conditions.

E Expert Installers & Support

Trained & **certified ætherPro installers** and Australian-based support ensure professional service and fast resolutions.

T Technology-Driven & Future-Ready

Advanced **ætherSmart technology** offers real-time monitoring, proactive diagnostics, and remote issue resolution.

H Hi-Tech Timer for Max-Saving

Program your system to run on **timer** during off-peak hours or with solar, helping reduce electricity costs effortlessly.

E End-to-End Reliability

With proactive fault detection, seamless **smart connectivity**, and minimal downtime, your hot water is always running smoothly.

R Rock-Solid Warranty

Comprehensive **5-year warranty on parts & labor** ensures peace of mind and long-term performance.

Performance at a Glance

Model		ætherCore	ætherHome	ætherMax
Power supply		22V~240V/50Hz/1pHASE		
Water Tank Volume		220L	270L	320L
Optional Running Modes		Economic / Standard / Booster / E-Heater		
Heating Capacity	Economic Mode	3.3kW	3.3kW	3.3kW
Rated Input Power		0.66Kw	0.66Kw	0.64 Kw
COP		5	5.08	5.15
Recovery Rate Per Hour		62L/h	62L/h	62L/h
Noise Level at 1 Meter		44dB(A)	44dB(A)	44dB(A)
Heating Capacity	Standard Mode	3.5kW	3.5kW	3.5kW
Rated Input Power		0.72kW	0.71kW	0.70kW
COP		4.86	4.93	5.00
Recovery Rate Per Hour		76L/h	76L/h	76L/h
Noise Level at 1 Meter		44dB(A)	44dB(A)	44dB(A)
Heating Capacity	Booster Mode	4.7kW	4.7kW	4.7kW
Rated Input Power		1.92kW	1.91kW	1.90kW
COP		2.45	2.46	2.47
Recovery Rate Per Hour		101L/h	101L/h	101L/h
Noise Level at 1 Meter		44dB(A)	44dB(A)	44dB(A)
Heating Capacity	E-Heater Mode	1.2kW	1.2kW	1.2kW
Rated Input Power		1.2kW	1.2kW	1.2kW
COP		1	1	1
Recovery Rate Per Hour		25.8L/h	25.8L/h	25.8L/h
Net Dimension		φ640x1965 mm	φ640x2025 mm	φ640x2240 mm
Packed Dimension		735x735x2100 mm	735x735x2160 mm	735x735x2375 mm
Net Weight		103kg	112kg	123kg
Gross Weight		122kg	131kg	142kg
Electric Heating Element		1.2kW		
Refrigerant		R290/395g		
Working range		-7~45°C		
IP Class		IPX4		
Max Input Current		9.8A		
Anode		2 x Magnesium Anodes
